BURGLARY IN HUNT-STREET.—The Coffee-house of Frederick Wolf, No. 108 Hunt-street, between Broadway and Spring, was feloniously entered night before inst, and robbed of a quantity of shirts and cigars. The burglars then proceeded up stairs and entered the sleeping-room of Mr. Wolf, and were in the act of rangacking a trunk, when he awoke, and they fied. They were pursued some distance, but without avail.

An Agen Woman Essucient Vineral by a Runaway House, a woman about sixty years of age, named Mrs. Moodle, who, we believe, at present resides in Newport, was knocked down by a runaway borse, on Mainstreet, opposite the Court-house, yesterday afternoon, and quite seriously injured. She was taken to the apartments of the engineer of the Court-house, where her wounds were attended to by Dr. Fishburn, who thinks she will speedily recover.

THE RECENT LABORNY OF UNFINISHED HODS—COMMITMENT OF THE PARTIES.—Chas. and Wm. Krahn and Ludwig Hahn, arrested a short time ago upon the charge of robbing a tan-yard at Goshen, Clermont County, Ohio, of about one thousand doilars worth of unfinished hides belonging to Salisman, Brunswick & Co., were examined yesterday before Justice McFall, and held in the sum of \$200 for their appearance before the next term of the Court of Common Pleas.

The Becart Main-grant Homeron.—The remains of Prof. Henry T. Crawley, who was selled last Wednesday night on Main-street, near Hunt, were interred yesterday. No clue has yet been obtained that would lead to the discovery of the homicide, but Mayor Bishop has issued a proclamation, offering a reward for his arrest, couched in the following terms: "Whereas, a most foul and unprovoked murder was committed upon the person of Prufessor Henry T. Crawley, on the night of Juhe 6, 1890, in this city, on Main-street, near Hunt; now, therefore, I, R. M. Bishop, Mayor of this city, do hereby offer the sum of five hundred dollars, to be paid to any person who will communicate such information as shall lead to the detection and final conviction of the murderer of said Professor Henry T. Crawley."

the murderer of said Professor Henry T. Crawley."

The citizens of Mt. Auburn yesterday held a meeting, at which F. Bodman presided, and T. H. C. Allen acted as Secretary, and resolved to attend the funeral of Prof. Crawley in a body, and invite Rev. N. Sheppard to deliver a funeral discourse next Sunday morning in the Methodist Episcopal Church at that place. The following resolution, reported by the committee appointed for that purpose, was also unanimously adopted:

Resolved, That this community has heard with astonishment and horror of the wanton and cruel muster of Prof. Henry T. Crawley, of the Toung have admired his high moral characteristics as well as his undoubted scholarship and intelligence, and have honored thin as emphasically follifling the high and rare condition of a sound mind in a sound body, and so a true positionant without fear and without reproach, we now deplore his instimely death as a public not less than a private calmity.

How INDIVIDUALS ALTER CASES AN EX-

How Individuals Alter Cases—As ExPolices as Makes Night Pideous and Escapes Arrest—A man, who, we believe, a
short time since was discharged from the
Police force for dereliction of duty, became
inebriated a night or two ago, and with a
pistol threatening to blow out the brains of
every person he saw, frightened a number of
citizens whom he happened to meet near the
corner of Sixth-street and Central-avenue.
He then visited a begine in the neighborhood, and raised a disturbance there which
brought to the scene a couple of the Fourteenth Ward Police, who, as soon as they
became aware of the name of the obstreperous party, walked quietly away and left him
to disturb whomsoever he chose.

We understand he was prevented from
making violent personal assaults upon a
number of individuals by a constable of the
Second Ward, who finally succeeded in
quieting him. This, we doubt not, is but
one instance wherein persons alter cases, and
we have ourself known gentlemen who happened to be conversing on a street corner,
to be annoyed by some impudent policemen,
who at the same time were themselves more
in the way than those whom they in the
most impertinent manner attempted to drive
from the sidewalk. While Mayor Bishop is
instituting reforms, we would respectfully
suggest the propriety of filling the ranks of
his police force with persons who at least can
discriminate between gentlemen and blackguards.

corner of Sixth and John, passed from Vinestreet into an alley between Fourth and Fifth-streets, for some purpose, last evening, and was followed by a couple of men who stabbed him seriously in the right side-making a wound about two and a half inches long, cut his head and otherwise injured him very badly.

The wounded man was found some time afterward, wholly unconscious, when he was taken to the office of the Summer Garden, where, after his wounds were dressed, he sufficiently recovered to render the above statement. It is probable that he may recover from his injuries, but this seems to be no fault of the assassins, who evidently believed him dead when they left him.

Outrages of this kind are becoming much too numerous in our city, and we earnestly hope some means may be provided whereby a man may be absolutely certain while passing quietly slong, at least our principal thoroughfares, that he will not be assailed and murdered.

THE GIRSON HOUSE.—In speaking of the Gibson House of this city the Petersburg (Va.) Express says: "It is one of the best kept hotels in America. In our travels we have nover seen it surpassed. The dining room presents daily a banquet, and the steward who officiates therein, is a model of politeness. The bed-rooms care as neat and comfortable as bed-rooms care be made, and the servanta not only know their duties, but perform them. And now comes the most astonishing fact connected with the Gibson House. For such accommodations as we have recited, the price is only \$1.50 per day! When we asked for our bill, and saw the figures, we could scarcely believe our own eyes. We have repeatedly paid \$2.50 per diem, and fared much worse than we did at the Gibson."

PROCEEDINGS OF THE COUNTY COMMISSIONERS. At their regular diurnal session yesterday morning the County Commissioners passed orders amounting, in the aggregate, to \$232 34; of which \$100 were paid to W.F. Forrest, Attorney at Law, for services \$46'04 to J. M. Armstrong for lumber for the Plainville Bridge, \$46 to Leonard Swarts for materials for the Work-house, and the balance to different parties for sundries.

William Parker, James Bartlett, P. Lilly, S. Robinson, C. Lewis and Jane Brown were discharged from the County Jail, because they had not the means wherewith to pay the fines and costs charged against them.

RAILROAD COLLISION.—A collision occurred near Midway, on the Louisville and Frankfort Railroad, yesterday morning, between an extra passenger train, and a freight train, in which one man, whose name we were unable to learn, received some severe injuries. No other damage was done.

CITY COUNCIL—STREET RAILROAD AGAIN.—A called seasion of the City Counil convened at the usual hour yesterday afternoon, and, after transacting some unimportant business, proceeded to the consideration of a proposition from James C. Blick and his associates, to construct lines of Street Railways in the city of Covington.

proceeded to the consideration of a proposition from James C. Blick and his associates,
to construct lines of Street Bailways in the
city of Covington. They propose first to construct a road, commencing at the foot of
Scott-street, and run up that street to Twelfth,
along Twelfth to Madison, down Madison to
Second, and along Second to Greenup, and
to extend it when necessary to meet the demand of the public. They ask this grant for
twenty-five or thirty years, and propose to

years, \$700 per year for the next five, and
\$1,000 annually afterward. They likewise
propose to sell to the city at any time, if they
will pay the cost of construction, &c. They
agrees to carry passengers for five cents per
trip, but there is to be no per capita tax.

The whole matter was referred to
the Committee on Internal improvements,
with instructions to draft an ordinance embracing the provisions of the proposition,

STREET RALEGOD TO JAMESTOWN.—Johnson & Co., proprietors of the Newport and Jamestown Street Railroad, have signified their acceptance of the conditions imposed by the City Council, for laying the track on Front-street, and we presume the work will be commenced immediately. The property owners on the line, causaite of the city limits, have granted the right of way, with the exception of two or three who are non-residents, and whose whereabouts are not known. There is no doubt but the road will be put in running order this summer.

The Ohio opposite this port was still rising owly yesterday, having swelled during the twenty four hours ending last evening about ten or twelve inches, making a channel-depth between here and Louisville of nearly fourteen feet. wal of the commissioners from Japan as a most propicious and agreeable event in his Administration—a historical event, which he trusted would unite the two nations in perpetual bonds of amity. He expressed his entire approbation of the conduct of this commissioners, and his conviction that his Imaerial Majesty the Ty-coon could not have selected representatives who could have more conciliated the good will of the American Government and people.

He had directed the Secretary of State to prepare a letter of recovernment and of the president—expressing his opinion of the manner in which they had performed the task intrusted to them; and before their departure they should receive a copy thereof. He desired further, as a token of his regard and friendship, to present to each of the Commissioners a gold medal struck at the Mint of the United States in commemoration of the occasion and services of the first Japanese, Embassy. Several presents for the Ty-coon, he said, would be sent to them before their departure.

The President concluded by wishing them much pleasure during the remainder of the time they may spend in the United States, and a safe and happy return to their own country, under the flag of the American Union. Upon the Embassador expressing their particular thanks for the attention they had received from Captain Import and the other officers of the Navy, on whom, too, the country would rely against foreign enemies, but would never have occasion to do so, he was sure, against the Japanesse.

The medals were then handed to the Embassador expression and the sent to the country would rely against foreign enemies, but would never have occasion to do so, he was sure, against the Japanesse.

The medals were then handed to the Embassadors who expressed much gratification at the style of their execution. After a brief interchange of courtesies with the gentlemen present, the final adieus of these interesting and distinguished visitors were made, the President taking each cordially by the hand, and they pressing his earnessty with both of theirs—the carenomious reserve of the Orientals giving way under the feeling inspired by the occasion.

Another Unild Poisoned by Toys.—The Brussels Journal of Medicine contains the account of another hearly fatal case of poisoning from the effects of the paint on children's toys. A child, six menths old, was taken with convulsions, writhing with pain, and uttering the most agonising shriness. It was with the greatest difficulty its life was saved. Examination showed that it had been poisoned from sucking a doll's head, the was the saved. Examination showed that it had been poisoned from sucking a doll's head, the white lead in the paint being a most deadly poison. Minium, or oxide of lead, is used for rad paint, white arsenic enters largely into the preparation of green and yellow, which colors are largely used in painting toys from their cheapness—and all in large enough quantities to kill a young child.

The Rope Walking Mania—Blondin Cressing Niagara.

Blondin made his first performance upon the rope this season at Niagara Falls on Wednesday. The Buffalo Courier easy that Blondin's rope, which is suspended this year over the awful gelf that yawns below the Bridge, where the imprisoned waters holl and seethe with more mad and fearful turbulence than at any other point along the river, is one thousand feet in length, and two hundred and ten feat above the water. It is steadled with a net-work of guys, thirty-two on each side, tightened with suspended sand-bags.

Blondin started from the American side about five o'clock, and made the passage across in seven minutes, stopping to perform various feats. At the middle of the rope he laid down apon his back with as much apparent composure as though reclining in the safest and most comfortable position that he could select. When within about fifty feet of the Canadian shore, he stood still, while a Daguerreian artist leveled his camera at him and took an impression. On arriving at the end of his perilous journey, and springing upon the cliff, he was greeted with loud cheers. After a short rest he returned again to the American shore, performing no remarkable feats by the way.

The New York Postorice Question Surtian.—The New York Postoffice is to remain where it is. The Department have purchased the present site for \$250,000—\$50,000 of the amount having been subscribed by merchants, bankers, and insurance companies. The Journal of Commerce says that arrangements will be speedily made for the exection of a substantial and every way convenient and appropriate edifice is flace of the present one, which is in many respects poorly adapted to the wants of the service, having been built for a church, and not covaring near all the ground. We further understand that the new edifice can be constructed in sections, around the present building, so as to avoid the seccesity of even a temporary removal of the postoffice business to any other locality.

CANDID CONFESSION OF A PHYSICIAN RE-SPECTING MEDICINE.—Dr. O. W. Holmes do-livered an address before the Massachusetts Medical Society, recently, in which he de-clared, in plain impusage, that mankind had been drugged to death; that whatever would injure a well man would injure a sink man; and that the world would be better off if the contents of every anotherary shop were emp-tied into the sea, though the consequences to the fishes would be lamentable.
